DWCC JOB ORDER MONITORING SYSTEM

Evaluation Sheet

NAME (optional): _____ OFFICE: _____

Instructions:

Read the following questions carefully. Indicate your rating in the space provided that corresponds to the level of your satisfaction in each item. The rating is as follows:

1 – Poor 2 – Fair 3 – Satisfactory 4 – Good 5 – Excellent

FUNCTIONALITY	
1. The system provides an appropriate set of functions for specified tasks and user objectives.	
2. The system provides security and is protecting data from unauthorized access.	
3. The system provides correct results and performs its functions satisfactory.	
RELIABILITY	
1. The system is able to avoid failure as a result of faults in the software.	
2. The system maintains a specified level of performance in cases of software faults.	
3. The system is able to re-establish a specified level of performance and recover the data directly affected in the case of a failure.	
USABILITY	
1. The system is usable without reference manual or user help.	
2. The system responds to inputs as indicated by directions.	
3. The system interface provides user with an appropriate environment.	
EFFICIENCY	
1. The system produces desired results without wasting materials/resources such as time and energy.	
MAINTAINABILITY	

DIVINE WORD COLLEGE OF CALAPAN
Governor Infantado St. Calapan City, Oriental Mindoro, Philippines, 5200

SCHOOL OF INFORMATION AND TECHNOLOGY

DWCC JOB ORDER MONITORING SYSTEM

Evaluation Sheet

1. The system is able to undergo diagnosis for any failures in the system, yet still works in a specified level of performance.	
2. The system is able to accept and implement specified modification.	
3. The system avoids unexpected effects from modifications of the software.	
PORTABILITY	
1. The system can be transferred/installed from one environment to another.	
2. The system can co-exist with other independent software in a common environment, sharing common resources.	
QUALITY IN USE	
1. EFFECTIVENES. The capability of the software product to enable users to achieve specified goals with accuracy and completeness in a specified context of use.	
2. PRODUCTIVITY. The capability of the software product to enable users to expend appropriate amounts of resources in relation to the effectiveness achieved in a specified context of use.	
3. SAFETY. The capability of the software product to achieve acceptable levels of risk of harm to people, business, software, property or the environment in a specified context of use.	
4. SATISFACTION. The capability of the software product to satisfy users in a specified context of use.	

COMMENT

Rest assured that the answers will be treated with utmost confidentiality and will only be used for the project. Thank you for participating.
